Re: Monthly Report of Potential 6(a)(2) Information -- Products Registered to United Industries Corporation

Dear Sir or Madam:

This letter is intended to provide EPA with additional information we have received since our March 18, 1998 letter to you regarding incidents involving pesticide products registered to United Industries Corporation ("UIC"). The incident data appearing in the attachments to this letter has been evaluated by our Product Incident Review Committee ("PIRC") at its most recent review session. Our PIRC has decided that the data attached to this letter is appropriate for filing with the EPA pursuant to FIFRA §6(a)(2).

As we stated in our previous filing letters, we are using the medical effects definitions developed by the Rocky Mountain Poison Center ("RMPC"), which handles many consumer inquiries for our company per our contractual arrangements with them. Please see Attachment B to our April 26, 1996 letter for a summary of definitions used.

Attachment A to this letter is our report of human exposure incidents in March 1998. Attachment B is a summary of Animal-related exposures reported in March 1998.
